If the Commission fails to confirm acceptance of these observations by giving written approval within 30 days of receiving them, the termination procedure shall continue to run.

Where notice is given, termination shall take effect at the end of the period of notice, which shall start to run from the date when notification of the Commission's decision to terminate the agreement or the participation of a beneficiary is received.

Where termination affects the participation of a beneficiary, only those eligible costs actually incurred by the beneficiary concerned up to the date when termination of his participation takes effect, in accordance with Article II.17 shall be considered eligible. Costs relating to current commitments that were not due to be executed until after termination shall not be taken into account. The request for payment of the eligible costs incurred up to the date when the termination of the participation of the beneficiary concerned takes effect shall be included in the following payment request due according to the schedule laid down in Article I.6.

By way of exception, at the end of the period of notice referred to in paragraph 4, where the Commission is terminating the agreement on the grounds that the co-ordinator has failed to produce the final technical implementation report and financial statement within the deadline stipulated in Article I.5 and the co-ordinator has still not complied with this obligation within two months following the written reminder sent by the Commission by registered letter with acknowledgement of receipt or equivalent, the Commission shall not reimburse the expenditure incurred by the beneficiaries up to the date on which the action ended and it shall recover any amount if its use is not substantiated by the technical implementation reports and financial statements approved by the Commission.

- II.13.1 Any amendment to the grant conditions must be the subject of a written supplementary agreement. No oral agreement may bind the parties to this effect.
- II.13.2 The supplementary agreement may not have the purpose or the effect of making changes to the agreement which might call into question the decision awarding the grant or result in unequal treatment of applicants.
- II.13.3 Where the request for amendment is made by the co-ordinator, in agreement with the co-beneficiaries, he must send the request to the Commission in good time before it is due to take effect and at all events one month before the closing date of the action, except in cases duly substantiated by the co-ordinator and accepted by the Commission.

- II.14.1 Eligible costs of the action are costs actually incurred by a beneficiary, which meet the following criteria:
- they are incurred during the duration of the action as specified in Article I.2.2 of the agreement, with the exception of costs relating to final reports and certificates on the action's financial statements and underlying accounts;
  - they are connected with the subject of the agreement and they are indicated in the estimated overall budget of the action;

- they are necessary for the implementation of the action which is the subject of the grant;
- they are identifiable and verifiable, in particular being recorded in the accounting records of a beneficiary and determined according to the applicable accounting standards of the country where the beneficiary is established and according to the usual cost-accounting practices of the beneficiary;
- they comply with the requirements of applicable tax and social legislation;
- they are reasonable, justified, and comply with the requirements of sound financial management, in particular regarding economy and efficiency.

The beneficiaries' accounting and internal auditing procedures must permit direct reconciliation of the costs and revenue declared in respect of the action with the corresponding accounting statements and supporting documents.

II.14.2 The eligible direct costs for the action are those costs which, with due regard for the conditions of eligibility set out in Article II.14.1, are identifiable as specific costs directly linked to the performance of the action and which can therefore be booked to it direct. In particular, the following direct costs are eligible provided that they satisfy the criteria set out in the previous paragraph:

- the cost of staff assigned to the action, comprising actual salaries plus social security charges and other statutory costs included in the remuneration, provided that this does not exceed the average rates corresponding to the beneficiary's usual policy on remuneration.

The corresponding salary costs of personnel of national administrations are eligible to the extent that they relate to the cost of activities which the relevant public authority would not carry out if the project concerned were not undertaken;

- travel and subsistence allowances for staff taking part in the action, provided that they are in line with the beneficiary's usual practices on travel costs or do not exceed the scales approved annually by the Commission;
- the purchase cost of equipment (new or second-hand), provided that it is written off in accordance with the tax and accounting rules applicable to the beneficiary and generally accepted for items of the same kind. Only the portion of the equipment's depreciation corresponding to the duration of the action and the rate of actual use for the purposes of the action may be taken into account by the Commission, except where the nature and/or the context of its use justifies different treatment by the Commission;
- costs of consumables and supplies, provided that they are identifiable and assigned to the action;

- costs entailed by other contracts awarded by a beneficiary for the purposes of carrying out the action, provided that the conditions laid down in Article II.9 are met;
- costs arising directly from requirements imposed by the agreement (dissemination of information, specific evaluation of the action, audits, translations, reproduction, etc.), including the costs of any financial services (especially the cost of financial guarantees). Such costs may also include specific costs incurred by the co-ordinator for fulfilling his responsibilities in his capability of the body responsible for the overall management of the action and the co-ordination of the beneficiaries.

II.14.3 The eligible indirect costs for the action are those costs which, with due regard for the conditions of eligibility described in Article II.14.1, are not identifiable as specific costs directly linked to performance of the action which can be booked to it direct, but which can be identified and justified by the co-ordinator or a co-beneficiary using their accounting system as having been incurred in connection with the eligible direct costs for the action. They may not include any eligible direct costs.

By way of derogation from Article II.14.1, the indirect costs incurred in carrying out the action may be eligible for flat-rate funding fixed at not more than 7% of the total eligible direct costs. If provision is made in Article I.4.2 for flat-rate funding in respect of indirect costs, they need not be supported by accounting documents.

II.14.4 The following costs shall not be considered eligible:

- return on capital;
- debt and debt service charges;
- provisions for losses or potential future liabilities;
- interest owed;
- doubtful debts;
- exchange losses;
- VAT, unless the beneficiary can show that he is unable to recover it according to the applicable national legislation. VAT paid by public bodies is not an eligible cost;
- costs declared by a beneficiary and covered by another action or work programme receiving a Union grant;
- excessive or reckless expenditure.

II.14.5 Contributions in kind shall not constitute eligible costs. However, the Commission can accept, if considered necessary or appropriate, that the co-financing of the action referred to in Article I.4.3 should be made up entirely or in part of contributions in kind. In this case, the value calculated for such contributions must not exceed:

- the costs actually borne and duly supported by accounting documents of the third parties who made these contributions to the beneficiary free of charge but bear the corresponding costs;
- the costs generally accepted on the market in question for the type of contribution concerned when no costs are borne.

Contributions involving buildings shall not be covered by this possibility.

In the case of co-financing in kind, a financial value shall be placed on the contributions and the same amount will be included in the costs of the action as ineligible costs and in receipts from the action as co-financing in kind. The beneficiaries shall undertake to obtain these contributions as provided for in the agreement.

II.14.6 By way of derogation from paragraph 3, indirect costs shall not be eligible under a grant for an action awarded to a beneficiary who already receives an operating grant from the Commission during the period in question.

## **ARTICLE II.15 – REQUESTS FOR PAYMENT**

Payments shall be made in accordance with Article I.5 of the Special Conditions.

**II.15.1 – PRE-FINANCING**

Pre-financing is intended to provide the beneficiaries with a float.

Where required by the provisions of Article I.5 on pre-financing, the co-ordinator shall provide a financial guarantee from a bank or an approved financial institution established in one of the Member States of the Union.

The guarantor shall stand as first demand guarantor and shall not require the Commission to have recourse against the principal debtor (the concerned beneficiary).

The financial guarantee shall provide that it remains in force until the pre-financing is cleared against interim payment(s) or payment of the balance by the Commission to the beneficiaries or, in the absence of such clearing, three months after a recovery is notified to a beneficiary by which the Commissions asks him to repay the pre-financing. The Commission undertakes to release the guarantee within the following month.

**II.15.2 – FURTHER PRE-FINANCING PAYMENTS**

Where pre-financing is divided into several instalments, the co-ordinator may request a further pre-financing payment once the percentage of the previous payment specified in the provisions of Article I.5 on further pre-financing has been used up. The request shall be accompanied by the following documents:

- a detailed statement of the eligible costs actually incurred, including a consolidated statement and a breakdown between each beneficiary;
- where required by the above-mentioned provisions of Article I.5, a financial guarantee in accordance with paragraph 1;
- where required by the above-mentioned provisions of Article I.5, a certificate on the action's financial statements and underlying accounts, produced by an approved auditor or in case of public bodies, by a competent and independent public officer, for each beneficiary as specified under Article I.5;
- any other documents in support of his request that may be required in support of the request for further pre-financing payments.

The documents accompanying the request for payment shall be drawn up in accordance with the relevant provisions in Article I.6 and the annexes.

**II.15.3 – INTERIM PAYMENTS**

Interim payments are intended to reimburse the beneficiaries for expenditure on the basis of a detailed statement of the costs incurred, once the action has reached a certain level of completion. It may clear all or part of any pre-financing.

By the appropriate deadline indicated in Article I.6, the co-ordinator shall submit a request for interim payment accompanied by the following documents:

- an interim report on implementation of the action;
- an interim financial statement of the eligible costs actually incurred, following the structure of the estimated budget, including a consolidated statement and a breakdown between each beneficiary;
- where required by the provisions of Article I.5 on interim payment, a certificate on the action's financial statements and underlying accounts, produced by an approved auditor or, in case of public bodies, by a competent and independent public officer, for each beneficiary as specified under Article I.5. The certificate shall certify, in accordance with a methodology approved by the Commission, that the costs declared by the beneficiaries in the financial statements on which the request of payment is based are real, accurately recorded and eligible and that all receipts have been declared, in accordance with the agreement.

The documents accompanying the request for payment shall be drawn up in accordance with the relevant provisions in Article I.6 and the annexes. The co-ordinator shall certify that the information provided in his request for payment is full, reliable and true. He shall also certify that the costs incurred can be considered eligible in accordance with the agreement, that all receipts have been declared, and that the request for payment is substantiated by adequate supporting documents that can be checked.

On receipt of these documents, the Commission shall have the period specified in Article I.5 in order to:

- approve the interim report on implementation of the action;
- ask the co-ordinator for supporting documents or any additional information it deems necessary to allow the approval of the report;
- reject the report and ask for the submission of a new report.

Failing a written reply from the Commission within the time limit for scrutiny indicated above, the report shall be deemed to have been approved. Approval of the report accompanying the request for payment shall not imply recognition of the regularity or of the authenticity, completeness and correctness of the declarations and information it contains.

Requests for additional information or a new report shall be notified to the beneficiary in writing.

If additional information or a new report is requested, the time limit for scrutiny shall be extended by the time it takes to obtain this information. The co-ordinator shall be informed of that request and the extension of the delay for scrutiny by means of a formal document. The co-ordinator shall have the period laid down in Article I.5 to submit the information or new documents requested.

Extension of the delay for approval of the report may delay the payment by the equivalent time.

Where a report is rejected and a new report requested, the approval procedure described in this article shall apply.

In the event of renewed rejection, the Commission reserves the right to terminate the agreement by invoking Article II.11.3 (b).

#### **II.15.4 – PAYMENT OF THE BALANCE**

Payment of the balance, which may not be repeated, is made after the end of the action on the basis of the costs actually incurred by the beneficiaries in carrying out the action. It may take the form of a recovery order where the total amount of earlier payments is greater than the amount of the final grant determined in accordance with Article II.17.

By the appropriate deadline indicated in Article I.6, the co-ordinator shall submit a request for payment of the balance accompanied by the following documents:

- a final report on the implementation of the action;
- a final financial statement of the eligible costs actually incurred, following the structure of the estimated budget, including a consolidated statement and a breakdown between each beneficiary;
- a full summary statement of the receipts and expenditure of the action including a consolidated statement and a breakdown between each beneficiary;
- where required by the provisions of Article I.5 on payment of the balance, a certificate on the action's financial statements and underlying accounts, produced by an approved auditor or, in case of public bodies, by a competent and independent public officer, for each beneficiary as specified under Article I.5. The certificate shall certify, in accordance with a methodology approved by the Commission, that the costs declared by the beneficiaries in the financial statements on which the request of payment is based are real, accurately recorded and eligible and that all receipts have been declared, in accordance with the agreement.

The documents accompanying the request for payment shall be drawn up in accordance with the provisions of Article I.6 and the annexes. The co-ordinator shall certify that the information provided in his request for payment is full, reliable and true. He shall also certify that the costs incurred can be considered eligible in accordance with the agreement, that all receipts have been declared, and that the request for payment is substantiated by adequate supporting documents that can be checked.

On receipt of these documents, the Commission shall have the period specified in Article I.5 in order to:

- approve the final report on implementation of the action;
- ask the co-ordinator for supporting documents or any additional information it deems necessary to allow the approval of the report;
- reject the report and ask for the submission of a new report.

Failing a written reply from the Commission within the time limit for scrutiny indicated above, the report shall be deemed to have been approved. Approval of the report accompanying the request for payment shall not imply recognition of the regularity or of the authenticity, completeness and correctness of the declarations and information it contains.

Requests for additional information or a new report shall be notified to the beneficiary in writing.

If additional information or a new report is requested, the time limit for scrutiny shall be extended by the time it takes to obtain this information. The co-ordinator shall be informed of that request and the extension of the delay for scrutiny by means of a formal document. The co-ordinator shall have the period laid down in Article I.5 to submit the information or new documents requested.

Extension of the delay for approval of the report may delay the payment by the equivalent time.

Where a report is rejected and a new report requested, the approval procedure described in this article shall apply.

In the event of renewed rejection, the Commission reserves the right to terminate the agreement by invoking Article II.11.3 (b).

#### **II.15.5. – Costs of transfers**

Costs of the transfers are borne in the following way:

- costs of dispatch charged by the bank of the Commission shall be borne by the Commission;
- costs of receipt charged by the bank of a beneficiary shall be borne by the beneficiary;
- all costs of repeated transfers caused by one of the parties shall be borne by the party who caused repetition of the transfer.

### **ARTICLE II.16 – GENERAL PROVISIONS ON PAYMENTS**

II.16.1 Payments shall be made by the Commission in euro. Any conversion of actual costs into euro shall be made at the daily rate published in the Official Journal of the European Union or, failing that, at the monthly accounting rate established by the Commission and published on its website applicable on the day when the payment order is issued by the Commission, unless the Special Conditions of the agreement lay down specific provisions.

Payments by the Commission shall be deemed to be effected on the date when they are debited to the Commission's account.

II.16.2 The Commission may suspend the period for payment laid down in Article I.5 at any time for the purposes of additional checks by notifying the co-ordinator that his request for payment cannot be met, either because it does not comply with the provisions of the agreement, or because the appropriate supporting documents have not been produced or because there is a suspicion that some of the expenses in the financial statement are not eligible.

The Commission may suspend its payments at any time if a beneficiary is found or presumed to have infringed the provisions of the agreement, in particular in the wake of the audits and checks provided for in Article II.20.

The Commission may also suspend its payments:

- if there is a suspicion of irregularity committed by a beneficiary in the implementation of the grant agreement;
- if there is a suspected or established irregularity committed by a beneficiary in the implementation of another grant agreement or grant decision funded by the General Budget of the Union or by any other budget managed by it. In such cases, suspension of the payments will only proceed where the suspected or established irregularity can affect the implementation of the current grant agreement.

The Commission shall inform the co-ordinator as soon as possible of any such suspension by registered letter with acknowledgement of receipt or equivalent, setting out the reasons for suspension.

Suspension shall take effect on the date when notice is sent by the Commission. The remaining payment period shall start to run again from the date when a properly constituted request for payment is registered, when the supporting documents requested are received, or at the end of the suspension period as notified by the Commission.

II.16.3 On expiry of the period for payment specified in Article I.5, and without prejudice to paragraph 2 of this Article, the beneficiaries are entitled to interest on the late payment at the rate applied by the European Central Bank for its main refinancing operations in euros, plus three and a half points; the reference rate to which the increase applies shall be the rate in force on the first day of the month of the final date for payment, as published in the C series of the Official Journal of the European Union. This provision shall not apply to recipients of a grant which are public authorities of the Member States of the Union.

Interest on late payment shall cover the period from the final date for payment, exclusive, up to the date of payment as defined in paragraph 1, inclusive. The interest shall not be treated as a receipt for the action for the purposes of determining the final grant within the meaning of Article II.17.4. The suspension of payment by the Commission may not be considered as late payment.

By way of exception, when the interest calculated in accordance with the provisions of the first and second subparagraphs is lower than or equal to EUR 200, it shall be paid to the co-ordinator only upon demand submitted within two months of receiving late payment.

- II.16.4 The Commission shall deduct the interest yielded by pre-financing which exceeds EUR 50 000 as provided for in Article I.5 from the payment of the balance of the amount due to the beneficiaries. The interest shall not be treated as a receipt for the action within the meaning of Article II.17.4.

Where the pre-financing payments exceed EUR 750 000 per agreement at the end of each financial year, the interest shall be recovered for each reporting period. Taking account of the risks associated with the management environment and the nature of actions financed, the Commission may recover the interest generated by pre-financing lower than EUR 750 000 at least once a year.

Where the interest yielded exceeds the balance of the amount due to the beneficiaries as indicated in Article II.15.4, or is generated by pre-financing referred to in the previous subparagraph, the Commission shall recover it in accordance with Article II.19.

Interest yielded by pre-financing paid to Member States is not due to the Commission.

- II.16.5 The co-ordinator shall have two months from the date of notification by the Commission of the final amount of the grant determining the amount of the payment of the balance or the recovery order pursuant to Article II.17 or, failing that, of the date on which the payment of the balance was received, to request information in writing on the determination of the final grant, giving reasons for any disagreement. After this time such requests will no longer be considered. The Commission undertakes to reply in writing within two months following the date on which the request for information is received, giving reasons for its reply.

This procedure is without prejudice to the beneficiaries' right to appeal against the Commission's decision pursuant to Article I.9. Under the terms of Union law in this matter, such appeals must be lodged within two months following the notification of the decision to the applicant or, failing that, following the date on which the applicant learned of the decision.

## **ARTICLE II.17 – DETERMINING THE FINAL GRANT**

- II.17.1 Without prejudice to information obtained subsequently pursuant to Article II.20, the Commission shall adopt the amount of the final payment to be granted to the beneficiaries on the basis of the documents referred to in Article II.15.4 which it has approved.

- II.17.2 The total amount paid by the Commission may not in any circumstances exceed the maximum amount of the grant laid down in Article I.4.3, even if the total actual eligible costs exceed the estimated total eligible costs specified in Article I.4.2.
- II.17.3 If the actual eligible costs when the action ends are lower than the estimated total eligible costs, the Commission's contribution shall be limited to the amount obtained by applying the Union grant percentage specified in Article I.4.3 to the actual eligible costs approved by the Commission.
- II.17.4 The beneficiaries hereby agree that the grant shall be limited to the amount necessary to balance the action's receipts and expenditure and that it may not in any circumstances produce a profit for them.

Profit shall mean any surplus of total actual receipts attributable to the action over the total actual costs of the action. The actual receipts to be taken into account shall be those which have been established, generated or confirmed on the date on which the request for payment of the balance is drawn up by the coordinator for financing other than the Union grant, to which shall be added the amount of the grant determined by applying the principles laid down in paragraphs 2 and 3 of this article. For the purposes of this article, only actual costs falling within the categories set out in the estimated budget referred to in Article I.4.1 and contained in Annex II shall be taken into account; non-eligible costs shall always be covered by non-Union resources.

Any surplus determined in this way shall result in a corresponding reduction in the amount of the grant.

- II.17.5 Without prejudice to the right to terminate the agreement under Article II.11, and without prejudice to the right of the Commission to apply the penalties referred to in Article II.12, if the action is not implemented or is implemented poorly, partially or late, the Commission may reduce the grant initially provided for in line with the actual implementation of the action on the terms laid down in the agreement.
- II.17.6 On the basis of the amount of the final payment determined in this way and of the aggregate amount of the payments already made under the terms of the agreement, the Commission shall set the amount of the payment of the balance as being the amount still owing to the beneficiaries. Where the aggregate amount of the payments already made exceeds the amount of the final grant, the Commission shall issue a recovery order for the surplus.

## **ARTICLE II.18 – FINANCIAL RESPONSIBILITY**

- II.18.1 The beneficiaries agree to be irrevocably and unconditionally, jointly and severally responsible for any amount due to the Commission by one of them which could not be honoured by the latter. The amount due to the Commission

will not exceed the maximum value of the contribution that could be granted to the beneficiaries in accordance with Article I.4.3, increased where applicable by interest on late payment.

II.18.2 The beneficiaries are not jointly responsible for financial penalties which could be imposed on any defaulting beneficiary in accordance with Article II.12.

## **ARTICLE II.19 – RECOVERY**

II.19.1 Where an amount, paid by the Commission to the co-ordinator in his capacity of recipient of all payments, is to be recovered under the terms of the agreement, the co-ordinator undertakes to repay the Commission the sum in question, on whatever terms and by whatever date it may specify, even if he has not been the final recipient of the amount due. In the latter case, if payment has not been made by the due date, the Commission reserves the right to recover directly the amount due from the final recipient.

Where such an amount to be recovered under the terms of the agreement was directly paid by the Commission to a beneficiary, or if recovery is justified under Article II.12 of the agreement, the beneficiary concerned undertakes to pay the Commission the sum in question, on whatever terms and by whatever date it may specify.

II.19.2 If the obligation to pay the amount due is not honoured by the date set by the Commission, the amount due shall bear interest at the rate indicated in Article II.16.3. Interest on late payment shall cover the period between the date set for payment, exclusive, and the date when the Commission receives full payment of the amount owed, inclusive.

Any partial payment shall first be entered against charges and interest on late payment and then against the principal.

II.19.3 If payment has not been made by the due date, sums owed to the Commission may be recovered by offsetting them against any sums owed to the concerned beneficiary, in cases where the beneficiary also has a claim on the Union or the European Atomic Energy Community, after informing him accordingly by registered letter with acknowledgment of receipt or equivalent, or, depending on the terms of the Special Conditions, by calling in the financial guarantee provided in accordance with Article II.15.1. In exceptional circumstances, justified by the necessity to safeguard the financial interests of the Union, the Commission may recover by offsetting before the due date of the payment. The beneficiary's prior consent shall not be required. If the recovery remains unsuccessful under the provisions above, the Commission shall hold all the beneficiaries collectively jointly responsible for the amount due in accordance with Article II.18.

- II.19.4 Bank charges occasioned by the recovery of the sums owed to the Commission shall be borne by the concerned beneficiary.
- II.19.5 The beneficiaries understand that, under Article 299 of the Treaty on the functioning of the European Union, the Commission may adopt an enforceable decision formally establishing an amount as receivable from persons other than States. An action may be brought against such decision before the General Court of the European Union.

## **ARTICLE II.20 – CHECKS AND AUDITS**

- II.20.1 The co-ordinator undertakes to provide any detailed information, including information in electronic format, requested by the Commission or by any other outside body authorised by the Commission to check that the action and the provisions of the agreement are being properly implemented. Where the Commission so wishes, it may request such information to be provided directly by a co-beneficiary.
- II.20.2 The beneficiaries shall keep at the Commission's disposal all original documents, especially accounting and tax records, or, in exceptional and duly justified cases, certified copies of original documents relating to the agreement, stored on any appropriate medium that ensures their integrity in accordance with the applicable national legislation, for a period of five years from the date of payment of the balance specified in Article I.5.
- II.20.3 The beneficiaries agree that the Commission may have an audit of the use made of the grant carried out either directly by its own staff or by any other outside body authorised to do so on its behalf. Such audits may be carried out throughout the period of implementation of the agreement until the balance is paid and for a period of five years from the date of payment of the balance. Where appropriate, the audit findings may lead to recovery decisions by the Commission.
- II.20.4 The beneficiaries undertake to allow Commission staff and outside personnel authorised by the Commission the appropriate right of access to sites and premises where the action is carried out and to all the information, including information in electronic format, needed in order to conduct such audits.
- II.20.5 By virtue of Council Regulation (Euratom, EC) No 2185/96 and Regulation (EC) No 1073/1999 of the European Parliament and the Council, the European Anti-Fraud Office (OLAF) may also carry out on-the-spot checks and inspections in accordance with the procedures laid down by Union law for the protection of the financial interests of the Union against fraud and other irregularities. Where appropriate, the inspection findings may lead to recovery decisions by the Commission.

II.20.6 The Court of Auditors shall have the same rights as the Commission, notably right of access, as regards checks and audits.

**ANNEX I A - DESCRIPTION OF THE ACTION****Project ref.:** HOME/2012/EBFX/CA/EA/3000**Title:** Support of the First Reception Mobile Units operation for the first reception procedures in areas that are under pressure by high migration flows**1. A brief and general presentation of how the project would provide an immediate, timely and adequate response to duly substantiated emergency situations resulting from unexpected political events or crisis situations arising in a specific third country or region, exposing the Member State concerned to the exceptional circumstances when implementing a common policy at external borders**

Greece remains the main entry point to the European Union for thousands of aliens, both refugees and migrants, who enter the country in mixed migratory movements. According to the data from Frontex, Greece is the major gateway of undocumented migrants and asylum seekers from Africa and Asia. In 2011 the European Court of Justice found that 90 per cent of all irregular entry into Europe was through the Greek borders. Greece is considered to hold the immigration burden for the whole Europe because it is the “gate to Europe”.

Most migrants are detected crossing illegally the border between Turkey and Greece, along the so-called Eastern Mediterranean route. In August 2012, the Greek authorities mobilized resources at their land border with Turkey, including the deployment of 1.800 additional Greek police officers. The number of detected illegal border-crossings rapidly dropped in the north of Greece but led to a moderate increase in detections of illegal border-crossing in the Aegean Sea and Crete.

The increased number of migration inflows are due to the crisis situation and political events in countries of the Middle East and Africa, mainly Syria, Egypt and Somalia.

Also a high number of migrants from Afghanistan, Iran and Pakistan are among the mixed migration population that arrive to our territory through the Greek – Turkish maritime borders.

The arrival on a daily basis of an increased number of irregular migrants to several parts of the Greek territory, puts under pressure not only the authorities which are responsible for their management but also the local society if the immediate humanitarian needs related to these arrivals are not met in a timely manner.

This project aims to provide specific material and human resources to the recently created Hellenic First Reception Service to undertake the screening and first reception of migrants upon arrival at the main entry points for mixed migratory movements at land and sea, in accordance with internationally accepted standards and Greek legislation. The needs of vulnerable persons within the groups arriving at the borders (e.g. unaccompanied minors, women in pregnancy, young children or infants, elderly people, asylum seekers, victims of trafficking etc.), in terms of medical care, psychological support or other forms of assistance will also be addressed through the project.

Due to the above needs of these people, the Greek authorities must ensure that these humanitarian needs are covered, always in a context of respect of human dignity and their rights according to the International Law.

More particular, every person arriving at the border must undergo a screening process that includes identification, registration, medical examination on the spot and potential referral to hospital and/or psychological support (if necessary). They must also be provided with basic primary assistance items (e.x clothes, footwear, accommodation and food) and be informed on their rights and obligations under the international and national law.

The created needs by these migration inflows are not possible to be covered by the existing infrastructures and personnel and therefore the situation can be described as emergency.

This project aims at proving a solution to this emergency situation by sending two first reception mobile units to the points where the migrants are arrested in order to provide the first reception procedures and to guarantee the conditions that respect human dignity and rights, in accordance with the International obligations of the country. Especially, to register, identify and detect the health situation and the vulnerability of the migrants and to cover their needs of healthcare, clothing and board.

These Units will cover the entire Greek territory, namely they will be deployed in every region or island where the number of irregular migrants creates emergency needs.

## **2. A substantiated indication of the exceptional or extraordinary character of the situation, demonstrated by elements which may include recent statistical and other data regarding the inflow of persons at the particular border points concerned.**

The situation in the Greek territory and especially in islands of North-eastern Aegean Sea has become exceptional regarding the inflow of irregular immigrants.

The table below shows in numbers how the situation has deteriorated the last year in the area of North Aegean Sea.

Table. 1: Number of irregular migrants arrested for illegal entrance and stay by the police and the port authorities

	<b>First half of 2012</b>	<b>First half of 2013</b>	<b>Percentage change</b>
<b>Lesvos</b>	122	<b>2.392</b>	1.860,66%
<b>Samos</b>	34	<b>1.028</b>	2.923,53%
<b>Chios</b>	17	305	1.694,12%
<b>Dodecanese</b>	65	866	300,00%

Table. 2: Number of arrested irregular migrants entering from the Greek - Turkish maritime borders

	Arrested by Hellenic Police	Arrested by Hellenic Coast Guard	Total
<b>First half of 2012</b>	166	46	212
<b>First half of 2013</b>	1.332	3.293	4.625
<b>Percentage change</b>	702,41%	<b>7.058,70%</b>	2.081,60 %

As the above statistical data indicates, the number of irregular migrants continues to grow to the extent that creates urgent needs in some parts of the country- for example Lesbos, Samos, Chios –which is not possible to manage with the current infrastructures.

As far as the possible developments of the situation in the short term are concerned, the recent numbers show that the irregular migrants will continue to create pressure to the islands of the North Aegean Sea, if we take into account the data of the table below.

Table. 3: Example: number of arrested irregular migrants from 21/06/2013 - 25/6/2013 in Lesbos and Samos Islands

	21-6-13	22-6-13	23-6-13	24-6-13	25-6-13
<b>Lesbos</b>	1	0	30	74	39
<b>Samos</b>	43	52	0	37	5

### 3. Content of the action

At points where an increased inflow/arrests of irregular migrants is observed, First Reception Service in co-operation with the two partners will provide:

- Registration and identification of the irregular migrants.
- Medical examination and provision of healthcare and medicines.
- Psycho-social support to those in need.
- Identification of vulnerable groups and their referral to welfare bodies.
- Referral to the Asylum Service of the migrants that express a request for international protection.

In order to implement the above procedures a total number of 30 employees will be involved (12 from the First Reception Service and 18 from the two NGOs). More specifically, each of the two Mobile Units will include the following personnel:

Head of Mobile Unit: 1 Head of Unit (civil servant of FRS). The Head of the Unit is responsible for the referral to the Asylum Service of all persons seeking international protection, as well as the referrals of vulnerable persons to the appropriate welfare institutions. S/he is also in charge of supervising the registration procedure and coordinating the work in general of the mobile unit.

Registration Office: up to 3 registration officers, depending on the needs (civil servants of FRS)

Drivers : 2 (1 of which will be with professional driving licence for the mobile medical vehicle, employed by the NGOs and another one contracted by the FRS)

Identification Office: identification officers (police officers employed by the Hellenic Police and providing services to FRS according to law. Their number will depend on the needs)

Medical Office and Psychosocial Support Office: 2 Medical Doctors, 2 nurses, 1 psychologist, 1 social worker, 1 administration officer and 1 project manager (personnel employed by NGO).

Administrative Support: 1 administration officer (civil servant of FRS), who apart from his administrative duties, will be working closely with International Organizations such as UNHCR and I.O.M and will ensure the provision of interpretation services.

The salary of the above mentioned personnel (or any personnel that we may be employed to work in the mobile units) who is not included in the cost claim (budget) of the project will be charged to the National Budget (FRS budget). Due to the high level of responsibility, the NGOs Project Managers may need to visit the mobile units more than once a month on specific occasions and therefore (16) visits are included in the budget in order to cover all needs that may arise.

All the above procedures are conducted with the aid of interpreters always in a language that is understandable by the migrants.

It must be clarified that the task of informing the migrants on their rights and obligations according to European and International Law, will be implemented by UNHCR and not by the employees of the First Reception Service, in the context of an agreement that is already been made for the implementation of the project named “Strengthening of the first reception response to new arrivals in mixed migratory movements at the borders in the region of Evros and on the Aegean Islands in Greece”. After the end of the above project and in the case the UNHCR will not be able to fund a similar project, the task of informing the migrants on their rights and obligations according to European and International Law, will be implemented by the employees of the First Reception Service that will be part of the Mobile Units, after a special educational seminar that will be organized by UNHCR on those particular issues especially for FRS personnel. That will cause delays on the other procedures – as FRS personnel is not enough to cover all procedures and the Service is always looking for partners to cover all the needs – and will be implemented only in the case of lack of funding, so that to ensure all migrants will get adequate information on their rights and obligations.

The FRS as a newly established service with no previous experience in EU funding issues is planning on outsourcing to consulting services (technical support) in order to fulfil all necessary tasks concerning EU funding (drafting of reports, payment requests etc).The activities will be carried out jointly by the three partners of the project (the First Reception Service and the two NGOs MDM and MedIn), which are the main actors dealing with the screening and other first reception related services targeting migrants who cross into the Greek territory through the Greece-Turkey borders. In the light of

exceptional needs for the operation of mobile units, office equipment is going to be an essential asset in order to proceed with first reception procedures and specifically to be able to undertake the identification registration and medical screening in an efficient and timely manner. In this context, adequate number of desks, chairs, laptops, printers etc will be necessary to be acquired.

During the implementation of the project, monitoring visits will be scheduled in order to ensure that everything is performed according to the projects regulations. These visits will be performed every six months by the FRS employees responsible for the implementation of the project in groups of two for each mobile unit.

**4. A description of the organisation(s) involved in the actions envisaged providing supporting services to the concerned Member State (Community Agencies, national authorities of the Member State concerned, authorities of other States, NGOs, International Organisations).**

The partners involved in the actions of the project are firstly, First Reception Service of the Ministry of Public Order and Citizen Protection and secondly two Non Governmental Organisations (N.G.Os), which are the following:

- Médecins du Monde (MDM), Greece
- Medical Intervention (MedIn), Greece

Each Mobile Unit works in cooperation with one NGO of the above.

First Reception Service has as a task the efficient management of the third-country nationals who enter the country irregularly, in a context of respect of human dignity by subjecting them to first reception processes. Therefore, all third-country nationals who have entered the country without legal formalities, are subjected to first reception processes, including: a) the verification of their identity and nationality, b) their registration on a national database, c) their medical control and the provision of any necessary health care and psychosocial support, d) information about their rights and obligations, in particular the conditions under which they can be placed under international protection and e) special care for those belonging to vulnerable groups (i.e. unaccompanied minors, disabled or people suffering from an incurable disease, elderly people, women in pregnancy or childbirth, single parents with minor children, victims of torture, rape or other serious forms of psychological, physical or sexual violence or exploitation, trafficking victims).

In this context, First Reception Service will contribute to the implementation of the project by deploying employees from the Headquarters. This personnel will provide services of registration of the irregular migrants on a national database and of referral of vulnerable groups to welfare bodies or of migrants that ask for international protection to the Asylum Service. Also a person from the personnel deployed at the Mobile Units will be the Head of the Unit.

MDM - Greece were established in 1990 and they constitute a unique Greek Organization. At the same time, however, they remain part of the International Network

of MDM which consists of 14 chapters. The guiding principle underlying MDM's activities is that every human being has a right to humanitarian assistance, irrespective of their ethnic origin, religion, ideology or political persuasion. MDM are, therefore, guided by the principles of neutrality and impartiality. Being neutral, however, does not preclude MDM from speaking out. MDM fight injustice in all its forms. Constant defenders of human rights MDM objects decisively to racism, xenophobia, social exclusion and the marginalization of social teams. MDM – GR operate medical activities with the support of more than 150 daily active volunteers and 30 paid staff members. At the same time, MDM – GR provide through the department of Social Services social support and advisory to the beneficiaries of the Organisation and through the Psychological Department with the help of an extensive net of volunteers correspond in the increasing need of psychological support of vulnerable social groups without no access to public or private centres of mental health due to social and economic situations.

Completing 23 years of continuous action, in 2013, MdM have been recognized to the conscience of the citizens as a reliable and effective organization which promotes the feelings of solidarity of the Greek society

MedIn is a Greek medical relief organization founded in Athens on March 8, 2004 and is a private legal entity. The primary concern is the creation and implementation of medical and humanitarian action. Members are doctors, nurses, social workers, psychologists and people with experience of humanitarian and medical action.

Each year, their team incorporates new volunteers who share the same goals and the same vision: Helping people in need, inclusive and discrimination.

The purpose of medical intervention is to assist and to address urgent or chronic populations in crisis abroad and within the country, with the creation, application and implementation of effective programs for each socially excluded groups.

The above two partners, namely the two N.G.Os, will provide services of health (medical examination of migrants and referral in hospitals for further examination or medical care), services of psychological and social welfare support, and will contribute to the identification of the vulnerability of the irregular migrants and their referral to welfare accommodation services.

## **5. Procurement procedures**

The procurement procedure of selecting the possible contractors (if any), will start on the 1st of November 2013 and will include the following stages.

Firstly, there will be “A Call for interest”, which will comply with all the necessary requirements set by the EU and Greek legislation.

Secondly, the submission of the dossiers with all the necessary documents will follow.

Thirdly, all the candidatures will be examined and assessed by a Committee which is appointed according to law.

Finally, there will be the final selection of the contractors and the signing of a contract for the provision of supplies or the signing of a contract for the provision fixed-term services.

Among the services/activities/goods that may be outsourced via procurement are the following:

- Medical vehicles.
- Passenger and equipment vehicles.
- Office furnitures and chairs
- Laptops, printers and photocopy machines
- Stationeries
- Brochures (translation and printing).

## **6. Timetable**

The project will be implemented in a period of twenty-four months, starting from 01.11.2013. Please refer to Annex I B for the timetable of project activities.

## **7. Expected results (output & deliverables) of the operation (at short term)**

The operations that will be developed under this project will improve the management of the inflows of irregular migrants.

The total number of irregular migrants that is expected to be screened over the period of the project is estimated to be around 18.000 people.

Everyone who enters Greece without the necessary documents will be registered, identified and furthermore they will be medically examined in order to protect public health but also to detect their particular needs and possible vulnerability. In case of vulnerable groups, they will be referred to existing welfare bodies through the National Coordinator, which is the National Centre for Social Solidarity (E.K.K.A).

The above procedures will ensure that the needs of the irregular migrants- such as referrals to hospitals, medical examinations, distribution of clothing and footwear etc -are covered and that they will be provided with all the necessary help and information regarding their status and rights.

## **8. Visibility of the EC funding**

The programme will be published on the official website of the Ministry of Public Order and Citizen Protection as and when it is approved, with a reference to the website of the competent authority (First Reception Service [www.asylo.gov.gr](http://www.asylo.gov.gr)) and references (with links) to the websites of the jointly co-beneficiaries (Médecins du Monde and Medical Intervention). The programme will also be published on the official websites of the co-beneficiaries and the responsible authority for EU financing and the External Borders Fund within the Ministry of Public Order and Citizen Protection ([www.mopocp.gov.gr](http://www.mopocp.gov.gr)).

Each communication action will include clear information on the participation of the EU (mainly in the form of a reference to the contribution of the EU and the percentage of assistance for the actions being promoted) and the European emblem/logo will appear alongside every national emblem/logo.

Information plaques or stickers will be attached to all types of equipment/infrastructure purchased or upgraded under the actions of the programme. One part of the plaque or sticker will be used to advertise the EU contribution (and specifically the External Borders Fund) by including a description in words and the Greek flag and the EU emblem/logo, as stipulated in Article 35 of Commission decision no. E (2008) 789/5-3-2008 on the implementation rules for Decision 574/2007/EC establishing the External Borders Fund.
